

ION Foot Bath for Gentle Detox

At Acupuncture & Healing Therapies 617-965-5251

What is it?

The ION Foot Bath balances and enhances the bio-energy or Qi of the body which is naturally stored inside the body and utilized by our cells.

Why Detoxify our Body?

We are living in the most polluted environment in our earth's history. We are continually inhaling and assimilating residues from petrochemicals, plastics and pesticides. mold and other allergens that occupy cell receptor sites and block hormone utilization. Also, the increase use of cell phones, TV and computers constantly bombards us diminishing our protective bio-energetic field.

We may have mild symptoms of headaches, obesity, constipation, poor circulation, acne, bad breath, digestive disorders, forgetfulness, allergies and sinus problems, depression.

We may have severe cases of toxins in our bodies which may produce:
High blood pressure, arthritis, diabetes, heart problems, kidney failure, insomnia and many other dis-eases.

We want to feel healthy, happy and to be active in our life!

BENEFITS of the ION Foot Bath:

- Increases Energy Levels
- Alleviates constipation
- Assists the revving up of the metabolism for Weight Reduction
- Relieves allergies, asthma
- Normalizes blood pressure and increases circulation
- Reduces water retention
- Allows for a better memory
- Boosts the immune system
- Detoxifies the body from yeast, food cravings, rashes, hyperactivity.
- Detoxifies the body from heavy metals that limit organ functioning.
- Relieves Arthritis

What is the Process of the ION Foot Bath?

The feet are placed in warm water with the ION charger which is totally safe and natural, at extremely low frequencies, researched by Raymond Rife. (See <http://www.rife.org/published.html>). The water bubbles indicating that the ionic field is created. And as the pores open they allow for a greater absorption through the skin. The toxins are pulled out of the body through the feet, and the water changes color from the toxins.

What Color is your ION Foot Bath?

Dark yellow, orange or brown, green, yellow, white, blue, black or red flecks.
Each color indicates toxins released from the body's organs.

This is a great session to precede massage or acupuncture sessions or as a weekly detox session.
